Subject: RE: TSCA Section 21 Petition

Dear Dr. Morris:

Thank you for your letter of October 4, 2018 acknowledging receipt of the September 26, 2018 petition filed under section 21 of TSCA by ADAO and five other groups seeking rulemaking to add asbestos to the Chemical Data Reporting (CDR) requirements and to strengthen and expand these requirements as applied to asbestos.

My purpose in writing now is to incorporate in the petition by reference all the materials in EPA-HQ-OPPT-2016-0736, the docket for the TSCA Review and Risk Evaluation for asbestos. Please consider these materials in deciding what action to take on the petition.

Thank you.

Bob Sussman

Subject: TSCA Section 21 Petition

Attached is a TSCA section 21 petition we are hereby filing with EPA on behalf of the Asbestos Disease Awareness Association, American Public Health Association, Center for Environmental Health, Environmental Working Group, Environmental Health Strategies Center and Safer Chemicals, Healthy Families. The petition requests that EPA initiate rulemaking under TSCA section 8 to add asbestos to Chemical Data Reporting (CDR) requirements and to strengthen and expand these requirements as applied to asbestos.

We would be pleased to discuss the petition in greater detail with the Agency.

Thank you for your consideration.
